From the Standing Committee on Taxes—

Your committee, to whom was referred petition of the Thompson Lumber Company to the Minnesota Tax Commission for correction of assessment for paving, which assessment is upon that part of lot E lying west of the east 360 feet thereof of the West End Subdivision to the City of Minneapolis, and is for the paving of West Lake street from Excelsior to France avenue, have given same careful consideration and beg leave to report and recommend as follows:

We find that the property of the Thompson Lumber Company was assessed the sum of $4,658.50 for this pavement. The estimated cost of the proceeding was $48,000.00—one-third paid by the city and two-thirds assessed. The actual cost of the proceeding was something in excess of $34,000.00. There is, therefore, a substantial balance in the fund created for the construction of this pavement. We also find that the property of the Thompson Lumber Company is located north of and abutting West Lake street and east of the right-of-way of the Chicago, Milwaukee and St. Paul Railway Company. A substantial portion of the frontage of this property upon West Lake street abuts what is claimed by the company to be an approach to the bridge over the railway tracks, and the District Court of Hennepin County has so held.

The proceeding has been concluded, and the City Attorney advises us that it is doubtful if the Council itself has the authority to reduce the assessment, but that the Minnesota Tax Commission probably has such authority. We, therefore, as the local board of review, beg leave to report and recommend to the City Council that the Council approve the correction and reduction of said assessment to the sum of $2,329.25, without prejudice to the right of the Thompson Lumber Company to participate in any refund of the surplus in said proceeding to which it may be entitled upon such corrected assessment.

M. U. S. Kjorlaug, Josiah H. Chase, Fred A. Maurer, F. H. Brown, W. A. Currie, Committtee.

Approved, Neil M. Cronin, City Attorney.

From the Special Committee on Municipal Auditorium—

Your committee having under consideration an offer of settlement in the case of the appeal of William Peet to the District Court of Hennepin County from the award of the Commissioners in the matter of the condemnation, taking and acquiring by the City of Minneapolis of lands as and for a site for a Municipal Auditorium, respectfully reports that upon investigation of the facts and circumstances involved in said appeal we find the following facts:

William Peet was the owner of lot 5 and the south one-half of lot 4, block 1, Mill's Addition to Minneapolis, according to the plat thereof on file and of record in the office of the Register of Deeds of Hennepin county. This land is located at the corner of 14th street and 3rd avenue south, having a depth of 122.83 feet on 14th street and a frontage of 75 feet on 3rd avenue. The buildings thereon consisted of two frame stucco duplexes, one double frame garage, one 3-stall frame garage, one 4-stall frame garage and two small sheds. The Commissioners appointed by the District Court fixed a basic value for Mr. Peet's land at $250 a front foot on 3rd avenue frontage. In computing the value of appellant's land the Commissioners figured his frontage as being 62½ feet, whereas in fact he is the owner of 75 feet frontage on 3rd avenue. This clerical error in calculation decreased the award to the appellant by $3,125, making the value of his land $15,625 instead of $18,750. Four recognized real estate experts testified before the Commission on behalf of the appellant as to the fair market value of his land, exclusive of buildings. The average figure of his experts as to land value was $20,875. Three expert contractors, qualified as experts on building values, testified before the Commission that the buildings on appellant's property were worth $10,716.66 as the average figure. The total value of land and buildings as the average testified to by the appellant's experts was $31,591.66. The city's experts on land and building values will testify to a total value of land and buildings of $24,330. The owner filed his appeal in the sum of $45,000. It is possible that a jury, in determining the fair market value

of this land, would adopt the opinions of the appellant's experts, and, in any event, a verdict would not be less than the amount conceded by the experts for the city. An offer has been submitted by the appellant to settle his appeal on the basis of $25,530 as the fair market value of his land and buildings on October 22, 1924, the date of the filing of the Commissioners' report.

We therefore recommend, after a consideration of the foregoing facts and after advising with the City Attorney, that the appeal be settled upon the basis herein indicated, namely, upon a basis of $25,530, as the fair market value of the appellant's land and buildings at the time of their taking by the city, together with interest on said award as allowed by law, less unpaid taxes on said property for the year 1924, and that the City Attorney be and is hereby authorized and directed to enter into such stipulations as may be necessary to effect the settlement herein recommended.

A. B. Fruen, E. J. Sweeney, F. H. Brown, John Ryan, Josiah H. Chase, John Peterson, P. J. Pryts, Walter C. Robb, Frank E. Giebenhain, O. A. Pearson, J. P. Ekberg, E. Hanscom, Committee.

D. 1926.

RESOLUTION

(By Aldermen Sweeney and Giebenhain)

On the death of James H. Duryea.

Resolved by the City Council of the City of Minneapolis:

That in the death of James H. Duyrea, who was called to his heavenly home on February 24, 1926, at the age of seventy-two, the city has lost a faithful citizen and public servant.

Mr. Duryea was born in Illinois, and came to Minneapolis in 1887. In 1902 he was elected alderman of the Tenth Ward, and he was always active in seeking the best interests of his ward and of the city. He was instrumental in securing various improvements for his ward; the first paving in the Tenth Ward was laid during his term of office, and to him is due much credit for this work. The Laurel avenue bridge was a project in which he was actively interested. Through his action the practice of parading the Workhouse prisoners through the city streets was discontinued. He was a man of exceptional character and strong influence, of deep convictions and absolutely dependable. He was a member of Highland Park Presbyterian church, where his forceful per-

sonality and effective work will be long remembered.

Be it therefore further resolved, that the members of the City Council express their appreciation of the high character and strong qualities of Mr. Duryea, and that this resolution be spread upon the minutes of this meeting of the Council, and that a copy thereof be sent to his family as an expression of sympathy for them in this hour of their sorrow.

Passed March 5, 1926. O. J. Turner, President of the Council.

Approved March 9, 1926. George E. Leach, Mayor.

Attest: Edgar L. Noyes, City Clerk.

AN ORDINANCE

Regulating the Construction, Installation, Alteration and Repair of Warm Air Heating Furnaces and Plants Within the City of Minneapolis.

The City Council of the City of Minneapolis do ordain as follows:

Section 1. It shall hereafter be unlawful for any person, firm or corporation to construct or install any warm air heating furnace or plant, or alter or repair any existing warm air heating furnace or plant, without first making written application for and securing a permit from the Inspector of Buildings therefor, or to fail or neglect to comply with the provisions of this ordinance and of the permit so issued thereunder; and any person, firm or corporation applying for any such permit shall, upon demand of said inspector, furnish him with all proper and sufficient information relating thereto. and shall, upon completion of the work authorized by such permit, immediately notify the Department of Buildings that said work has been completed and apply for an inspection of the same, giving the permit number and the location of the job, and such applications for inspections shall be entered in a book kept in the office of the Department of Buildings for that purpose. Provided, however, that a permit shall not be required, as hereinbefore provided, for repairs to any existing warm air heating furnace or plant if the cost of such proposed repairs will not exceed Twenty-five Dollars ($25.00).

Section 2. The provisions of this ordinance shall be held to be minimum requirements adopted for the protection of the health, welfare and safety of the community.

DEFINITIONS:

Section 3. The following definitions shall govern the meanings of the respective words, terms and expressions wherever used in this ordinance, and in their use by the Inspector of Buildings.

A warm air heating plant, as referred to by this ordinance, shall consist of a warm air heating furnace dependent upon gravity for circulation of air, enclosed within casings, and with all proper and necessary equipment connected therewith, intended for heating the building in which the same is installed.

A dwelling shall be taken to mean and include any house or building, or portion thereof, which is or is to be occupied in whole or in part as a home, residence or sleeping place of one or more human beings, either permanently or transiently.

In cases where a building is occupied in part as a "dwelling," the part so occupied shall be considered a dwelling, for the purpose of this ordinance.

MINIMUM ALLOWABLE FLUE

AREAS:

Section 4. (a) It shall hereafter be unlawful to connect any warm air heating furnace to any chimney or stack having a flue area less than eighty (80) square inches, if such flue be rectangular, or less than seventy-eight and one-half (78.5) square inches if such flue be round, where the total leader pipe area (or heating capacity) of such furnace does not exceed one thousand (1,000) square inches or to a proportionately greater area of chimney flue where such total leader pipe area, or heating capacity, of such furnace exceeds one thousand (1,000) square inches. Such chimney flue shall have no other vent pipe or smoke pipe connection thereto without first securing permission from the Inspector of Buildings.

(b) Provided, however, that in any dwelling which, together with its chimney, were both constructed prior to the passage of this ordinance, a warm air furnace whose leader pipe area capacity does not exceed one thousand (1,000) square inches may be installed and connected to said chimney if the area of the flue of said chimney be not less than fifty (50) square inches, if round, or fifty-two (52) square inches, if square, and a proportionately greater area of chimney flue shall be required when the leader pipe area capacity of the furnace to be connected to such chimney exceeds one thousand (1,000) square inches, all subject to the approval of the Inspector of Buildings; and said inspector is hereby authorized and empowered to require such increase in the height of any such chimney flue, or such other changes, as he may deem necessary to help compensate for lack of flue area and ensure safety. Such chimney flues shall have no other vent or smoke pipe connections thereto unless authorized by said inspector.

(c) It shall hereafter be unlawful for any person, firm or corporation to burn, in any warm air furnace attached to a chimney flue of reduced area such as hereinbefore provided for in sub-division (b) of this section, any fuels having more than twenty-one (21) per cent volatile matter content, and any violator of this provision of this ordinance shall be subject to the penalties hereinafter provided.

(d) For each and every warm air furnace hereafter installed in the City of Minneapolis, under the provisions of this ordinance, the area of the breeching or smoke pipe shall not be less than the area of the smoke collar of the furnace to which it is connected, and each such breeching or smoke pipe shall be made of galvanized iron of not less than No. 24 U. S. standard gauge. Each such breeching or smoke pipe shall be provided with a proper damper conveniently located; shall be securely wired in place; shall have all joints riveted or fastened with sheet metal screws to make them rigid; shall have proper thimble for making tight connections to chimney flue.

NOTE: Where durability is an important factor, it is recommended that the breeching or smoke pipe connection between furnace and the chimney thimble be made heavier than No. 24 U. S. standard gauge, or be made of sheet copper, or of cast iron pipe.

HEADERS, WHEN: SPACING OF STUDDING AND JOISTS:

Section 5. (a) Whenever it is necessary, in installing or altering any warm air heating plant, to cut joists or supporting members, proper headers shall be put in, and additional supports shall be provided when necessary to prevent weakening of the structure, in a manner subject to the approval of the Inspector of Buildings.

(b) Where warm air risers enter the wall, in any building under construction, the studdings shall be set directly over and under the adjacent joists, leaving a net space of not less than fourteen (14) inches between studs and between joists.

WARM AIR PIPES AND STACKS, SIZES OF:

Section 6. In connection with any warm air heating plant in any dwelling, no warm air leader pipes, wall stacks, furnace or fittings shall hereafter be installed of sizes less than those determined in the following manner:

The glass area of any room shall include the full frame size of all outside window openings and of all outside door openings.

The outside wall exposure of a room shall be computed by multiplying the height of the outside wall of such room by its length, and deducting therefrom the glass area of said room.

THEN,

(a) To determine the area in square inches of a basement leader pipe or pipes to serve any first floor room:

Divide the "glass area" of the room, in square feet, by twelve (12);

Divide the "outside wall exposure" of said room, in square feet, by sixty (60);

Divide the "cubical contents" of said room, in cubic feet, by eight hundred (800);

Add the above quotients and multiply by ten (10). The result thus obtained will be the required area ex-

pressed in square inches.

(b) For the area of a leader pipe or pipes to serve any second floor room, proceed as provided in (a), but multiply the sum of the quotients thus obtained by six and one-half (6.5).

(c) For the area of a leader pipe or pipes to serve any third floor room, proceed as provided in (a), but multiply by five and one-half (5.5).

(d) For the area of a wall stack or stacks to serve a first floor room, proceed throughout as provided in (a).

(e) For the area of a wall stack or stacks to serve a second floor room, proceed throughout as provided in (b) and then deduct thirty (30) per cent from the area so found.

(f) For the area of a wall stack or stacks to serve a third floor room, proceed throughout as provided in (c), and then deduct thirty (30) per cent from the area so found.

FURNACES, CAPACITIES OF:

Section 7. For the heating of any dwelling, no warm air furnace shall hereafter be installed whose heating capacity is less than that determined in the following manner:

(a) When the ratio of heating surface area to the grate area is twenty to one (20:1), the heating capacity shall be determined by multiplying the grate area (using the smallest diameter of the firepot as the diameter of the grate) by 1.6. The result shall be at least equal to the total required area of the warm air pipes.

(b) When the furnace has a larger ratio of heating surface area to grate area than twenty to one (20:1), its rating shall be increased by 2 per cent for each unit increase in ratio. Thus, if the ratio is 21 to 1, the increase shall be 2 per cent; if the ratio is 22 to 1, the increase shall be 4 per cent, etc. Conversely, if the furnace shall have a lower ratio of heating surface area to grate area than twenty to one (20:1), a deduction of 2 per cent shall be made in its rating for each unit decrease in ratio. Thus, if the ratio is 19 to 1, the deduction shall be 2 per cent; 18 to 1, the deduction shall be 4 per cent, etc.

(c) Definition: The heating surface is hereby defined as all surfaces of the furnace body inside the casing, above the grate level, in contact with fire, flame or hot gases on one side, and circulating air on the other side, and the surface area of the air side of such portion of the furnace body shall, for the purposes of this ordinance, be considered the heating surface area of the furnace.

(d) Every warm air furnace shall be equipped with a water pan or humidifying device to evaporate moisture into the air, and it is strongly recommended for physical comfort, health and fuel economy that every furnace be equipped with a humidifying device capable of maintaining relative humidity of 40 per cent at 10 degrees above zero (Fahrenheit) outside temperature and 68 degrees (Fahrenheit) inside temperature.

WARM AIR FURNACES FOR BUILDINGS OTHER THAN DWELLINGS:

Section 8. The capacities of any such warm air furnaces intended for heating stores, churches, theatres, public garages and other buildings not classified under "dwellings" shall be subject to the approval of the Inspector of Buildings. In all other respects, the installation of any such warm air heating plants, except in garages, shall comply with the provisions of this ordinance.

Note: See Garage Ordinance.

MANUFACTURER'S RATINGS REQUIRED:

Section 9. Before a permit shall be issued by the Inspector of Buildings for the installation of any warm air heating furnace or plant, the heating contractor, or the owner, shall furnish said inspector with the furnace manufacturer's ratings with respect to heating surface and grate area, as determined in accordance with the provisions of Section 7 of this ordinance.

TRANSITION FITTINGS AND STACKS:

Section 10. Transitions from warm air leader pipes to stacks shall be made with well designed elbows or boots so constructed that their internal areas of opening will at no point be less than the required areas of opening of the leader pipes to which they are connected.

SIZES OF REGISTER:

Section 11. (a) Registers shall have a total free area of openings equal to or greater than the wall stack or warm air leader pipe requirements for the room to be served, as determined by Section 6 of this ordinance.

(b) Each register face shall have a free area of opening of at least seventy (70) per cent of the gross area.

(c) Register heads shall have a total free throat area equal to or greater than the wall stack or warm air leader pipe requirements for the room or rooms to be served, as determined by Section 6 of this ordinance.

WARM AIR FURNACES, CONSTRUCTION AND INSTALLATION OF:

Section 12. (a) Wherever practicable, any warm air furnace hereafter

installed in any building shall be so located as to equalize as much as possible the length of warm air leader pipes, giving preference, in dwellings, to pipes supplying living and dining rooms and main halls.

(b) The base ring of the furnace shall be cemented to the furnace foundation, making an air tight joint.

(c) All joints and sections shall be tightly fitted, and all joints requiring cement shall be caulked with asbestos rope and cemented with asbestos furnace cement.

(d) Each such furnace shall be enclosed in metal casings, or within walls of brick or concrete.

(e) Such metal casings, including casing tops, shall be of galvanized iron not lighter than No. 26 U. S. standard gauge, and shall be dust tight and be securely fastened to the furnace front.

(f) Such casings shall be lined with sheet metal extending from top casing ring down to grate level.

(g) No ovalling of casing collar shall be permitted.

(h) In no case shall a distance of less than eight (8) inches be maintained between the top of furnace and the top of casing or bonnet.

(i) The tops of all side casing collars shall be on the same level, and shall be fitted into place with a proper flange or bead in such manner as to make a dust-tight joint. All such collars shall be of the same sizes as the warm air pipes connected to them.

(j) The metal casing top of each warm air heating furnace shall be covered with sand to a depth which shall be not less than four (4) inches at the center of said top, and such further fireproofing shall be installed as is required by the ordinances of the City of Minneapolis.

(k) No furnace casing or top shall be closer than six (6) inches to any ceiling, joists, beams or girders.

WARM AIR LEADER PIPES:

Section 13. (a) No warm air leader pipe less than eight (8) inches in diameter shall hereafter be installed in any warm air heating plant.

(b) All warm air leader pipes shall be run as direct as possible, without "dip" and where sharp turns and pipes longer than twelve (12) feet are unavoidable, the next larger standard size pipe shall be used.

(c) All warm air leader pipes shall be made of bright tin not lighter than "IC," or of galvanized iron. All side seams shall be locked seams. All joints shall be either double seamed or lapped not less than one and one-fourth (1¼) inches and, excepting at the casing collar, such joints shall be soldered at at least three (3) places, equally spaced, or secured with three (3) sheet metal screws. All pipes shall be properly supported from ceiling or joist. Any pipe fourteen (14) inches in diameter or larger shall be made of "IX" tin or of No. 26 U. S. standard gauge galvanized iron.

(d) No warm air leader pipes shall be run within one (1) inch of any woodwork, unless such woodwork is covered with sheet asbestos weighing not less than twelve (12) pounds per one hundred (100) square feet, and then covered with tin or iron.

(e) Each warm air pipe, where leaving the furnace, shall be provided with a proper damper, placed not more than two (2) feet from the furnace casing.

(f) Warm air pipes, where passing through any wall or partition shall be double walled, having an air space of at least one-half (½) inch, or shall be covered with at least two layers of corrugated air cell asbestos.

WALL STACKS AND CONNECTIONS:

Section 14. (a) All single wall stacks or wall pipes, heads, boots, ells, tees, angles and other connections shall be made of bright tin not lighter than "IC," or of galvanized iron, and shall be covered with at least one (1) thickness of sheet asbestos weighing twelve (12) pounds per one hundred (100) square feet, or with an equal and approved covering. Each such pipe shall be installed in such manner as not to obstruct the flow of air and to retain the full capacity of the pipe throughout. All joints shall be locked and held in place by means of lugs or of straps. No joint shall depend upon solder to make it tight.

(b) Where double wall stacks or wall pipes, heads, boots, ells, tees, angles and other connections are used, sheet asbestos or other covering will not be required.

(c) All double wall stacks or wall pipes, heads, boots, ells, tees, angles and other connections shall be made of bright tin not lighter than "IC," or of galvanized iron, and shall be made double from and including the boot or foot piece to the top of each stack and register head, and a continuous uniform air space of not less than five-sixteenths (5-16) inch shall be maintained between the inner and outer walls of all such stacks and fittings.

(d) All such pipes and fittings, either single or double, shall be firmly secured in place. No wall pipes or fittings shall be used which depend wholly upon soldered joints. Each member shall be so made that all

joints are locked and soldered, and the several members shall be attached to each other with snug-fitting slip-joints.

REGISTERS:

Section 15. (a) Baseboard or wall registers shall be fitted to the wall and stack head and the opening around the stack head tightly sealed with asbestos, making the connection between stack head and register air tight. The flanges of a one-piece register shall extend into the collar of head at least one-half (½) inch.

(b) When floor registers are used, the opening in the floor in which the register is placed shall be made not less than one-half (½) inch larger than the floor register box.

(c) Registers for warm air pipes shall not be located in outer walls of buildings.

AIR SUPPLY PIPES FOR FURNACE:

Section 16. (a) In no case shall air for circulation purposes be supplied to any furnace from the basement or furnace room.

(b) Air pipes for recirculation shall have a minimum total net area equal to the combined net areas of all the warm air pipes leading from the furnace.

(c) When a cold air or a return air shoe is connected to the casing at the base of the furnace, the opening shall not be extended above the level of the grate. The width of the shoe shall be sufficient to provide an area not less than the area of the return air pipe connected to it. Such shoe shall be used on all returns larger than twelve (12) inches that enter furnace above base.

(d) When the dimensions of the shoe referred to under sub-division (c) of this section of this ordinance are too large to maintain proper height with respect to grate level, a metal shield shall be placed midway between the casing and the fire pot in such manner as to prevent up-drafts in the return pipes and so as not to obstruct the circulation of air. Said shield shall extend from a height of at least six (6) inches above the top of the shoe, down at least to the grate level.

(e) Each horizontal return air pipe shall be so constructed as to maintain a constant net area of opening throughout its entire length at least ten (10) per cent greater than the area of the vertical connecting pipe. Such pipes shall be made of galvanized iron not lighter than No. 26 U. S. standard gauge, except that No. 30 gauge galvanized iron may be used for boxing joists or for top and bottom of channel boxes the sides of which are made of wood. All return air pipes shall be securely jointed, and tacked with solder or fastened with sheet metal screws in not less than three (3) places at each joint. Each such joint shall be covered with a four (4) inch strip of asbestos paper.

(f) The net free area of opening of a cold air or return air face shall be at least ten (10) per cent larger than the free area of opening of the return air duct to which it is connected.

(g) The height of any vertical cold air or return air register face shall not be greater than one and one-half times the horizontal distance from the register face to the opposite side of the return air stack opening in floor immediately back of said register face.

PIPELESS OR ONE PIPE FURNACES:

Section 17. (a) When but one (1) duplex grating is used for both warm air and cold air in a so-called pipeless furnace, the area of the cold air intake shall be at least equal to the area of the warm air outlet of the grating.

(b) Sub-divisions (d) to (k), inclusive, of Section 12 of this ordinance, relative to casing, shall not govern when a pipeless furnace is installed, but such installation shall comply with the requirements of this section of this ordinance.

(c) The inner and outer casings of any pipeless furnace shall be made of either black or galvanized iron not lighter than No. 26 U. S. standard gauge. A uniform air space shall be maintained at all points between the inner and outer casing. In no case shall the top of the furnace be allowed closer than twelve (12) inches to any ceiling or joists above the furnace.

(d) Where joists are cut to accommodate the installation of any such furnace, proper headers shall be put in and additional supports shall be provided where necessary to prevent weakening of the structure, in a manner subject to the approval of the Inspector of Buildings.

(e) In figuring the heating capacity of a pipeless furnace, the same method of computation shall be employed as for pipe furnaces, as set forth in Section 7 of this ordinance, and to the heating capacity so found shall be added twenty-five (25) per cent. In no case shall any such pipeless furnace be installed in any building whose heating capacity after the above 25 per cent is added, is less than the total combined warm air leader pipe capacity which would be required by Section 6 of this ordinance were a pipe furnace to be installed to heat said building.

(f) Where one (1) warm air register face is used and separate face or faces for cold air supply are used, Sections 14 and 16 of this ordinance shall apply.

VALIDITY:

Section 18. Should any section or provision of this ordinance be held unconstitutional or invalid by any court, all other sections and provisions shall nevertheless be deemed as effective as though such unconstitutional or invalid section or provision had never been inserted in this ordinance.

THIS ORDINANCE TO GOVERN, IN CASE OF CONFLICT WITH OTHER ORDINANCES:

Section 19. All ordinances, or parts of ordinances, inconsistent with the provisions of this ordinance are hereby repealed.

VIOLATIONS:

Section 20. The continued violation of any provision of this ordinance shall be and constitute a separate offense, under this ordinance, for each and every day such violation shall continue.

PENALTY:

Section 21. Any person, firm or corporation who shall violate any provision of this ordinance shall be subject, upon conviction thereof, to a fine of not less than Ten Dollars ($10.00) nor more than One Hundred Dollars ($100 00) for every offense, or upon failure to pay such fine, to imprisonment not to exceed ninety (90) days.

Section 22. This ordinance shall take effect and be in force from and after its publication.

From the Standing Committee on Efficiency and Economy—

Your committee to whom was referred motion of Alderman Ekberg, to investigate the Garbage Collection Department, respectfully report that the committee met pursuant to instructions and upon explanation by Alderman Ekberg of his motion, held hearings and examined witnesses relative to reported irregularities in the department. Charges were made that a city owned Ford Motor block was exchanged for a privately owned block and installed in a Ford car belonging to C. A. Farley, route foreman in the Collection Department; and that certain serial numbers on several other city owned Ford Motor Blocks had been filed off and restenciled.

The committee examined Mr. Orville Wurst and Mr. Elmer Gasskjolen, the men that made the charges. They stated that the motor had been changed and serial numbers tampered with. They charged drunkeness on the job and intimated that there were other irregularities. On examination it was learned that Mr. Wurst was formerly employed by that department as a mechanic, but on account of physical disability, was given an opportunity to work as a truck driver and as a helper, but not being able to do this work, he resigned and left the employ of the city. Mr. Gasskjolen is now employed by the city, but at the time he made the charge he was suspended on account of liquor being found in his truck.

Messrs. Gooden, Henry and Stewart, the mechanics at the Collection Garage, were questioned. There was no denying that the motor had been changed or serial numbers restencilled. Mr. Gooden admitted having made all these changes himself, changing the motor by authority of Mr. Buckley, superintendent at the plant, but making the serial number changes by his own free will but without any criminal intent, only in order that it would save some work in making the serial numbers correspond with the license tag. Serial numbers did not correspond with the license tags due to the city having a spare motor which was substituted for motors in the trucks as conditions required.

Other men examined were Messrs. Brock, Kane, Simcoe and Sexton. They all testified that they could not point to any specific irregularity, but contended that there was friction between the employes and Mr. Farley. Mr. Buckley, superintendent at the plant was examined with respect to authority for motor changes and he explained that this was an understanding that was had with the City Council about three years ago, when Mr. Farley was made route foreman, that his car was to be maintained by the city, he to use it for the city business and to receive no additional pay as route foreman over the pay as helper. There was no car or truck available for Mr. Farley when his car was laid up so that in order for him to continue his work properly he authorized the change pending reconditioning Mr. Farley's motor. This statement was confirmed by Mr. Erickson, bookkeeper at the plant.

Mr. Farley was questioned and admitted the motor change and the changes in serial number but denied any attempt to defraud the city.

After hearing this testimony, we are of the opinion that although the stipulated charges were true, there was no criminal intent. Other verbal charges were all based on hearsay and no definite cases of drunkeness could be recited.

It is our opinion, however, that the position of route foreman can be dispensed with and that the superintendent should be required to take care of these duties.

There should be a shop foreman directly responsible to the superintendent and to whom all mechanics report and who should be responsible for conditions of the trucks. The garage shop should be partitioned off and nobody allowed in it except mechanics. A storekeeper should be designated responsible only to the superintendent, whose duty it shall be to see that all tools, equipment and spare parts are properly accounted for and that a proper check is kept on the gasoline consumption.

We further recommend that the operation of the Incinerator and Collection Departments be placed entirely under the direction of the City Engineer, and that the superintendent report directly to him.

We further recommend that in the future, should any employe violate any of the regulations pertaining to the use or possession of intoxicating liquors, that he be discharged from service forthwith.

John Peterson, O. J. Turner, John P. Ekberg, F. H. Brown, P. J. Pryts, Committee.

Alderman Ryan moved that the foregoing report be referred back to the Committee on Efficiency and Economy.

Alderman Rendell moved to amend the motion of Alderman Ryan to read to refer to a joint Committee on Efficiency and Economy and Power and Crematory.

The question being on the motion of Alderman Ryan to refer back to Committee on Efficiency and Economy, it was adopted.

From the Special Committee on Municipal Auditorium—

Your committee having under consideration the matter of additional fireproofing for the interior columns in the municipal auditorium building, except those adjacent to the arena, and for certain columns in the exterior walls, report and recommend as follows:

According to the plans of the architects, the above mentioned columns are inclosed by fireproof walls, but no fireproofing material in direct contact with the surface of the columns is provided for, as required by the building ordinance. Certain columns in the exterior walls likewise have less fireproofing than specified in the ordi-

nance for such columns. This matter was referred to the sub-committee for investigation and report. The sub-committee, after a conference with the contractors, architects, Building Inspector and City Attorney, made full report to your committee. It appears that there is a difference of opinion between experts as to the need for further fireproofing in addition to that already provided for in the plans. The architects are of opinion that no additional fireproofing is required, and this is the opinion of other builders. On the other hand, reliable experts make the claim that there should be further fireproofing in order to make a perfect job. In view of the specific requirements of the ordinance ,the Building Inspector cannot authorize the fireproofing as proposed in the plans, for he has no authority to waive the ordinance provisions. It is conceded by all concerned that the matter of further fireproofing of the interior columns is of less importance than additional fireproofing of the columns in the exterior walls. It is also agreed by all parties that there is not involved any question of human safety or human life; that as respects the danger of accident or injury to persons within the building, it will be fully as safe without the additional fireproofing called for in the Building Ordinance. It is estimated that the cost of further fireproofing of the exterior walls would be about $4,200 and the cost of additional fireproofing of the interior columns approximately $10,000. The City Attorney advises that the responsibility for the additional cost can as well be determined later as at present.

After a full consideration of the opinions received in the matter, and having in mind that the municipal auditorium building is not an ordinary building but a case of special construction, your committee is of opinion that it is unnecessary to require any further fireproofing of the interior columns not adjacent to the arena, but that it would be advisable to require additional fireproofing of the columns in the exterior walls. It is accordingly recommended that the Council direct the Building Inspector and the architects to order the contractor to fireproof the columns in the exterior walls in accordance with the provision of the building ordinance; that the interior columns not adjacent to the arena as listed and numbered in the attached Exhibit A be erected without any further fireproofing than is now called for by the plans and specifications. It is further recommended that the accompanying ordinance amending the building ordinance so as to exempt the auditorium building from the present requirements of the ordinance in respect to fireproofing of interior columns, be passed.

EXHIBIT A

At the request of the Chairman of the Paving Committee, I would like to call a special meeting of the Council on Friday, April 23, 1926, to consider the purchase of street oil.

From the Special Committee on Elections—

Your committee, which met pursuant to the call of the chair, with City Attorney Neil M. Cronin in attendance, to discuss the matter of presenting the proposed City Charter of the City of Minneapolis, considered the motion of Alderman Bastis that a motion be so drawn that it would not call for a Special Election, but that it be passed upon by a majority of the votes cast on primary election day, and not merely by a majority of the votes cast upon the Charter proposition, respectfully recommend, upon the advice of the City Attorney that such procedure is illegal, that the motion be not passed.

In no case, however, shall either the Council or the School and Library Board authorize any transfer of funds, without the approval of the Board of Financial Review, if such transfer will operate to defeat in whole or in part any decision of the said Board of Financial Review, applicable to the current fiscal year. Written notice of any transfer shall forthwith be given to the Director of Finance by the City Clerk, or the Secretary of the School and Library Board, as the case may be. No portion of any appropriation of moneys received from bonds issued by the city, or of the appropriations for interest and principal of the city debt, as specified in subdivisions (5) and (6) of Section 67 of this Charter, or for the retirement fund or for the Board of Financial Review, shall be transferred to any other object or purpose.

Section 74. No contract, agreement or other obligation involving the expenditure of money to be charged to any appropriation made by the Council or by the School and Library Board shall be entered into, nor shall any order for such expenditure be valid, unless the Director of Finance shall first certify to the Council or School and Library Board, as the case may be, that the balance in such appropriation is sufficient to meet the requirements of such contract, agreement or obligation, that it is otherwise unencumbered and that there are in the fund from which any such obligation is to be paid unencumbered moneys sufficient to meet such obligation when and as it matures. Section 76. All contracts ,agreements or other obligations entered into, all ordinances and resolutions passed, and orders adopted, contrary to the provisions of Sections 74 and 75 of this Charter shall be void, and no person whatever shall have any claim or demand against the city thereunder, nor shall the Council, the School and Library Board, or any officer of the city waive or qualify the limitations fixed by such sections, or fasten upon the city any liability whatever in excess thereof.

ANNUAL TAX LEVIES

Section 77. It shall be the duty of the Director of Finance to estimate the amount of revenue to be derived from each source thereof, including borrowings, if any, from which money may be received to meet the appropriations made by the Council and by the School and Library Board in their annual appropriations. Upon the passage of any such appropriations, as provided by this Charter, the Director of Finance shall report in writing to the Council and to the School and Library Board the amount of revenue required by each from general taxation and the amount that each must levy to secure such revenue and shall at the same time deliver a correct copy of such report to the Board of Financial Review, or an officer, or the Secretary thereof. Upon the receipt of the report of the Director of Finance, the Council and School and Library Board shall each levy taxes upon all the taxable property in the city in the amount specified in such report unless, by a revision and reduction of appropriations for the ensuing year, the levy of a lesser amount be made possible. If the Council or School and Library Board determine, by a revision and reduction of its appropriations ,to provide for a lower tax levy, the Director of Finance shall, upon the completion of such revision and reduction, likewise report to the Council, or School and Library Board, as the case may be, the tax levy required under such revision and reduction and the Council, or the School and Library Board, shall thereupon proceed to levy the amount so reported. The Director of Finance shall also deliver, or cause to be delivered ,to the Board of Financial Review, or an officer, or the Secretary thereof, a correct copy of such report. In no case shall the Council or School and Library Board levy a tax in any other amount than that reported to be required by the Director of Finance in accordance with the provisions of this section. Nothing in this section shall prevent the Board of Financial Review from reducing any tax levy as provided by this Charter.

LIMITATION ON ANNUAL TAX LEVIES

Section 78. The portion of the tax levy made by the Council which is apportionable to purposes and funds other than the sinking fund, the interest fund and the retirement fund, as defined in Sections 96 and 49, respectively, of this Charter, and other than funds for legally organized pension and relief associations, for which tax levies are authorized by statute, shall not exceed the amount produced by a rate of twenty (20) mills on each dollar of the assessed valuation of all taxable property in the city except by the affirmative vote of at least three-fourths of the members of the Council, and in no case shall such portion of the levy made by the Council exceed the amount which a rate of twenty-three (23) mills will so produce. The portion of the tax levy made by the School and Library Board, which is apportionable to purposes and funds other than funds for legally organized pension or relief associations for which tax levies are authorized by statute, shall not exceed the amount produced by a rate of twenty-one (21) mills on each dollar of the assessed valuation of all taxable property in the city except by the affirmative vote of at least six members of said Board and approval by the affirmative vote of at least three-fourths of the members of the Council and, except as hereinafter provided, no such portion of the levy made by the School and Library Board shall exceed the amount which a rate of twenty-four (24) mills will so produce. Not less than five per cent of such portion of the levy made by the School and Library Board shall be devoted exclusively to public library purposes. The School and Library Board may, by a vote of at least six members thereof, and with the approval of the

Council expressed by the affirmative vote of at least three-fourths of the members thereof, levy a tax in excess of the amount hereinbefore authorized, provided that such additional amount be appropriated for and used exclusively in the acquisition and improvement of sites and the construction, improvement and equipment of buildings under the jurisdiction of the School and Library Board. Any ordinance passed by the Council or resolution passed by the School and Library Board which levies a tax in an amount in excess of that provided by the limitations herein specified or in excess of the maximum rate, if any, fixed by the Board of Financial Review, as authorized and prescribed by this Charter, shall be null and void to the extent of such excess and no greater amount than that provided by such limitations shall be levied and assessed against taxable property in the city. Wherever the phrase "assessed valuation of all taxable property in the city" is used in this section it shall mean "the assessed valuation" of such property when classified, assessed and valued as prescribed by Section 1993, General Statutes of Minnesota for 1923.

CERTIFICATION OF ANNUAL TAX LEVIES

Section 79. Immediately upon the passage of the annual tax levy ordinances by the Council and the annual tax levy resolution by the School and Library Board, certified copies thereof shall be transmitted to the auditor of Hennepin County, by the City Clerk and the secretary of the School and Library Board, respectively, and except as otherwise expressly provided in this Charter the taxes so levied shall be collected and the payment thereof shall be enforced with and in the same manner as state and county taxes are collected and the payment thereof enforced.

TREASURER TO RECEIVE TAXES FROM COUNTY

Section 80. Taxes and assessments of the city of Minneapolis collected by the Treasurer of Hennepin County, together with all interest and penalties collected thereon, shall be paid over to the City Treasurer as provided by general law, and by Chapter 123, Special Laws of Minnesota for 1891, hereby adopted and made a part of this Charter. In complying with the provisions of this section the Treasurer of Hennepin County shall account for and pay over to the City Treasurer such portion of the interest paid by banks in which funds of the county are deposited as has accrued from funds arising from city taxes and assessments deposited with or as part of such county funds.

ADVANCE TAX SETTLEMENTS

Section 81. Whenever, previous to any settlement between the Treasurer of Hennepin County and the City Treasurer as provided by law, there shall be a lack of funds in the city treasury and there shall be funds in the county treasury collected on account of city taxes or assessments, the County Treasurer shall, upon the application of the City Treasurer, advance and pay over such sums as shall be estimated to be the amount collected on account of city taxes or assessments. Any such advances shall be accounted for and adjusted at the next regular settlement with the city.

COUNTY AUDITOR TO SUBMIT STATEMENT OF TAXES LEVIED

Section 82. It shall be the duty of the Auditor of Hennepin County to make out and transmit to the Director of Finance, on or before the first day of February of each year, a statement showing the exact amount of taxes levied on account of the City of Minneapolis, including taxes levied on account of the School and Library Board, according to the tax lists made out by said Auditor. He shall at the same time make and transmit to the Director of Finance a statement of all abatements, corrections or additions to such tax lists and the several amounts of such changes; of all taxes cancelled as uncollectable within the year next preceding and the amount thereof; and the amount of all city taxes delinquent and outstanding. At the time of making the settlements with the County Treasurer required by law such Auditor shall also furnish the Director of Finance with a certified statement of the several amounts collected by the County Treasurer on account of the City of Minneapolis.

COUNCIL TO DESIGNATE DEPOSITORIES

Section 83. On or before the fifteenth day of January of each year the Council shall designate as depositories the state and national banks and trust companies having a paid up capital of not less than fifty thousand dollars in which the funds of the city shall be deposited. In designating such depositories the Council shall specify the maximum amount of city funds that may be kept at any time in each, which maximum shall in no case exceed twenty-five per cent of the paid-up capital and surplus thereof. Unless a bank or trust company

designated as a depository shall elect to deposit securities with the city, as provided in the next succeeding section, it shall give good and sufficient bonds, with sureties to be approved by the Council, conditioned for the safe keeping and payment of city funds deposited therewith and of the interest thereon. Any such bonds of a depository shall be in the aggregate equal to the amount designated by the Council as the maximum of city funds which may at any time be kept by such depository.

BONDS PERMITTED AS SECURITY FOR DEPOSITS

Section 84. In lieu of the surety bonds specified in the next preceding section any depository of city funds may deposit with the City Treasurer bonds of the class and kind in which, by the provisions of this Charter, the sinking funds of the city may be invested. Bonds so deposited shall be in an amount equal to the amount of city funds permitted at any time to be deposited with such depository, shall be approved by the Council and shall be accompanied by a proper assignment thereof to the city approved by the City Attorney, to the end that the depository so depositing and assigning such bonds will safely keep and pay over to the City Treasurer, or his order, on demand and free of exchange, all moneys at any time deposited therein, with interest thereon at the rate agreed upon, and that in case of default on the part of such depository the Council shall have power and authority to sell such bonds, or as much thereof as may be necessary to realize the full amount of the funds deposited therein, and shall apply the proceeds of such sale in payment thereof to the city. The depository shall be entitled to the interest on the securities so deposited with the City Treasurer, when paid, and to the return of the securities at the termination of such trust so long as the depository is not in default. With the approval of the Council a depository may at any time substitute other like securities of equal value for those so deposited.

NEW SECURITIES MAY BE DEMANDED—WHEN

Section 85. Whenever for any cause the Council shall deem the bonds or securities of any depository insufficient security for the city funds deposited or likely to be deposited therein, the Council shall require new bonds to be given or new securities to be deposited with the City Treasurer. If any depository shall fail to forthwith execute and present such new bonds, or deposit such new securities, the City Treasurer shall at once withdraw all deposits therefrom and no further deposit of city funds shall be made therein until such bank or trust company shall have been redesignated by the Council as a depository.

RIGHTS OF CITY ON SURETY BONDS UNIMPAIRED

Section 86. All surety bonds given by a depository in accordance with the provisions of this Charter shall continue in force so long as funds of the city deposited therein shall be unpaid, or until other bonds or securities are given. Nothing herein provided shall impair any right or remedy of the city on such bonds under the laws of the state. Bonds and other securities given by depositories in accordance with this Charter shall be recorded by the Commissioner of Accounts and then deposited with the City Treasurer for safe keeping. Such record or a copy thereof certified by such Commissioner shall be competent and prima facie evidence of any bonds or securities so recorded.

TREASURER TO DEPOSIT FUNDS

Section 87. All funds received by the City Treasurer shall be deposited by him in the designated depositories in the name of the city of Minneapolis, subject to the order of the City Treasurer, and shall be distributed among the designated depositories as nearly as may be in proportion to the several maximum amounts which they have been authorized to receive by the Council.

DEPOSITORIES TO PAY INTEREST ON DAILY BALANCES

Section 88. Depositories shall pay interest on daily balances of city funds at a rate approved by the Director of Finance. The interest due on such deposits shall be paid to the City Treasurer by check on the first day of each month. If the City Treasurer shall at any time receive, or have in any depository, funds which will probably remain on deposit three months or longer he may, with the approval of the Council, either take therefore certificates of deposit from a designated depository, payable to his order on demand and bearing a higher rate of interest, or invest such funds in any bonds maturing within six months in which the sinking fund of the city may be invested. The Treasurer shall make a monthly statement to the Director of Finance of the funds in each of the depositories and the interest received thereon, as of the last day of each month, and the Director of Finance shall include such infor-

mation in his monthly statement to the Council required by section 39 of this Charter.

TREASURER TO WITHDRAW FUNDS—WHEN

Section 89. The City Treasurer, when notified so to do by the sureties on his official bond or by the Council, shall withdraw all funds from any depository and it shall be the duty of the Commissioner of Accounts to countersign all checks on such withdrawals. The Treasurer shall give the Council immediate notice of any such withdrawal and no further funds shall be deposited in such bank or trust company until it has been redesignated a depository as herein provided.

AUTHORITY TO PAY OUT CITY FUNDS

Section 90. No depository receiving funds of the city on deposit shall have authority to pay out any such money except upon checks drawn upon that depository signed by the Commissioner of Accounts and countersigned by the City Treasurer.

TREASURER LIABLE FOR LOSS OF FUNDS—WHEN

Section 91. When the funds of the city are deposited and kept in designated depositories according to the provisions of this Charter, the City Treasurer and the sureties on his official bond shall be exempt from all liability for the loss of any funds so deposited if such loss is caused by the failure, bankruptcy, or any other default of such depository or depositories. Nothing herein shall deprive the city of any right or remedy against any defaulting depository or against its officers or stockholders or exempt the City Treasurer or any member of the Council or any surety on any official bond required by this Charter from any liability for lack of ordinary care or due diligence in protecting the city against loss in case of the failure of the Council to designate such depositories or otherwise.

COUNCIL MAY INCUR DEBT—HOW

Section 92. The Council may by ordinance authorize that indebtedness be incurred for any municipal purpose, including local improvements authorized by ordinance the cost of which is to be met in whole or in part by special assessments assessed and levied against property benefited thereby, and pledge the credit of the city for the payment of the prinicapl and interest on any such indebtedness, by providing for the issue and sale of negotiable bonds or other obligations of the city, and no such indebtedness shall be incurred except by authority of the Council expressed by ordinance. Such authorizations of indebtedness shall be subject to review as provided in Sections 99 to 104 inclusive, in this Charter. Any such bonds or obligations shall be sold in the manner provided by section 1943 or section 1946 of the General Statutes of Minnesota, 1923, but subject to such terms and conditions as the Council may by ordinance provide. Any premium received from the sale of bonds or obligations shall be put into the sinking fund. All bonds or other financial obligations shall be signed by the Mayor and the City Clerk under the corporate seal of the city and shall be countersigned by the Director of Finance. Bonds and other financial obligations, the proceeds of which are to be expended by the School and Library Board, shall be authorized by the Council upon the request of such Board expressed by resolution adopted by an affirmative vote of at least two-thirds of the members thereof, but not otherwise. The proceeds of all bonds and obligations of the city shall be paid into the city treasury and shall be used only for the purposes for which authorized and as appropriated by the Council or School and Library Board, as the case may be.

NET INDEBTEDNESS DEFINED

Section 93. The Council shall not authorize the issue of any bonds or other obligations of the city whereby its net bonded indebtedness, as herein defined, would be made to exceed ten per cent of the last assessed valuation of taxable property therein including moneys and credits. Bonds or certificates of indebtedness, whether issued before or after the adoption of this Charter, shall not be included in or counted as a part of such net bonded indebtedness, if (1) held in the sinking fund of the city; or (2) issued for the acquisition, equipment, purchase, construction, maintenance, extension, enlargement or improvement of street railways, telegraph or telephone lines, water, lighting, heat and power plants, or either, or any other public convenience from which a revenue is or may be derived, owned and operated or to be owned and operated by the city, or the acquisition of property needed in connection therewith, or for the improvement of streets, parks, or other public improvements of any kind to the extent that they are payable from the proceeds of assessments levied upon property specially benefited by such improvements; or (3) issued for

the creation or maintenance of a permanent improvement revolving fund; or (4) for the purpose of anticipating the collection of general taxes for the year in which issued. In determining the net bonded indebtedness of the city as defined by this section, there shall also be deducted from the total indebtedness of the city, in addition to the bonds and certificates of indebtedness enumerated in this section, that portion of the amount of all money and the face value of all securities held in the sinking fund for the extinguishment of corporate debts, which is apportionable to bonds other than those enumerated in this section.

BOND ISSUES SUBMITTED TO REFERENDUM—WHEN

Section 94. Bonds or obligations of the city, the issuance of which would increase the net bonded indebtedness thereof to an amount in excess of nine per cent of the assessed valuation, shall not be authorized, except by an affirmative vote of at least three-fourths of the members of the Council, unless the Council submit the ordinance providing therefor to the electors of the city and it be approved by a majority of those voting thereon. No bonds or other obligations of the city shall be issued for the establishment, acquisition or construction of any street railway or other system of transportation, telegraph or telephone line, lighting, heat or power plant to be owned, or owned and operated, by the city unless the ordinance providing therefor be submitted to the electors of the city and approved by sixty per cent of those voting thereon. Any ordinance required by this section to be submitted to the electors shall provide that such submission be not less than thirty days after the passage thereof, and the ballot used in voting shall be governed by the provisions of sections 20 and 211 of this Charter. The provisions of this section requiring that certain ordinances authorizing the issuance of bonds or obligations of the city be submitted to the electors shall not be construed to prevent the electors from requiring that any ordinance authorizing the issuance of bonds or obligations of the city be submitted to the electors in accordance with the referendum provisions of this Charter.

APPROPRIATION FOR CITY DEBT MANDATORY

Section 95. Appropriations for city debt at least equal to the amounts required for that purpose, in conformity with subdivisions 5 and 6 of Section 67 of this Charter, shall be included in each annual appropriation ordinance passed by the Council. If the Council shall fail to appropriate for the city debt the amount so required, the Director of Finance shall cause to be set up an appropriation account for said amount and shall, notwithstanding any other appropriations made by the Council, transfer to such account, out of any moneys of the city derived from taxes and paid into the City Treasury, such amount or amounts as may be necessary to bring the appropriation for the city debt up to the amount so required. Any taxpayer of the city, or the owner of any bond of the city of Minneapolis, may bring a mandamus proceeding against the Director of Finance in the District Court of Hennepin County to enforce the provisions of this Section. If in any such proceeding the Court shall find that the Council has failed to make appropriations for the full amount required for the city debt and that the Director of Finance has failed to set up the appropriation account and provide for transfers thereto, all as required by this section, it shall order the Director of Finance to establish such appropriation account and transfer thereto amounts, as herein required, and shall punish disobedience to any such order as for contempt.

SINKING FUND AND INTEREST FUND APPROPRIATIONS REQUIRED

Section 96. All city bonds, certificates of indebtedness and similar obligations shall be redeemed from a redemption fund herein referred to as a sinking fund. The Council shall appropriate annually to the sinking fund, throughout the life of each and every obligation to be redeemed therefrom, an amount sufficient to provide for the accumulation of funds required to redeem the city's portion of such obligations at their maturity. The Council shall provide by ordinance for the care, investment and security of the sinking fund of the city until all debts of the city for the payment of which such fund is or may be pledged are fully paid, and no portion of the sinking fund or of any revenue or increase thereof shall be diverted to any other purpose. There shall also be created and maintained, so long as there be outstanding any obligations of the city on which interest is to be paid, a fund to be known as an Interest Fund. The interest on all city bonds, certificates of indebtedness and similar obligations shall be paid from such fund.

SINKING FUND COMMISSION—DUTIES—INVESTMENTS

Section 97. The sinking fund of the city shall be in charge of a Sinking Fund Commission consisting of the Mayor, the Director of Finance, and the City Attorney. The Mayor shall be the president and the Director of Finance the secretary of the commission. By and with the consent of the Council the Sinking Fund Commission shall invest the sinking fund in bonds or certificates of the United States, bonds or certificates of this state, or bonds of any other state of the United States, bonds of the city of Minneapolis, bonds of any city in the state of Minnesota, in such county or school bonds of Minnesota as may be approved by the Council, or in such other bonds as are permitted for the investment of the permanent school fund of the state of Minnesota. In case the sinking fund be invested in bonds of the city such bonds shall not be cancelled but shall be held by the Sinking Fund Commission and the interest thereon paid over and applied to the increase of the sinking fund. Whenever the principal of any of the bonds of the city shall become due the Sinking Fund Commission shall, with the consent of the Council, dispose of such of the bonds belonging to the sinking fund as, with the money on hand belonging to the sinking fund, shall be necessary to pay the bonds so becoming due.

GENERAL AND SPECIAL FUNDS ESTABLISHED

Section 98. The City Treasurer shall maintain two general funds to which all moneys received by the city shall be credited, which funds shall be known as the city general fund and the school and library fund. There shall also be maintained a sinking fund and an interest fund as defined in section 96, a permanent improvement revolving fund as defined in section 173, a retirement fund as defined in section 49, and such other special funds as the Director of Finance may designate. At the close of each month warrants shall be drawn against said general funds and in favor of the various special funds for the full amount of all money then in such general funds to the credit of such special funds, which warrants shall be signed by the Commissioner of Accounts and countersigned by the Director of Finance. Upon receipt of such warrants, duly countersigned, the Treasurer shall make such transfers as are hereby indicated.

Section 103. A petition for hearing and review by the Board of Financial Review upon any appropriation or tax levy ordinance or resolution, or any part thereof, may be presented to said Board and filed with the City Clerk as required by this Charter at any time before any such ordinance or resolution shall go into effect; a petition for any such hearing and review upon any ordinance authorizing a bond issue or other indebtedness, or any part thereof, may be so presented and filed at any time within fifteen days after the passage thereof; but no such petition shall be valid unless presented and filed within the time herein specified. Upon the presentation and filing of any such petition as required by this Charter, the operation of any such tax levy or appropriation

BOARD OF REVISION AND APPRAISAL

Section 147. The Mayor, the Director of Finance and three electors of the City appointed by a majority vote of all the members of the Council to serve during the pleasure of the Council, shall constitute a Board of Revision and Appraisal and as such shall have the powers and perform the duties hereinafter provided. Neither any member of the Council nor any person holding any other office under the city government shall be appointed by the Council to the Board of Revision and Appraisal. In case of the disability or absence from the city of any member of the Board, some qualified person shall be appointed by the Council to fill the place during the continuance of such disability or absence. The Mayor and Director of Finance shall receive no additional compensation by reason of service on the Board of Revision and Appraisal, but members thereof appointed by the Council shall receive such compensation as shall be fixed by ordinance. The Mayor shall be the president and the Commissioner of Assessment the secretary of such Board. Any additional secretarial or clerical assistance required by the Board in the performance of its duties shall be furnished from the office of the Commissioner of Assessment. The Board shall determine its own rules of procedure except as such rules may be established by ordinance. A vote of a majority of its members shall determine the action of the Board in all matters.

HEARINGS AND REPORT BY BOARD

Section 148. The Board of Revision and Appraisal shall meet at the time and place specified in any notice given as hereinbefore provided and may continue to meet by adjournment to such time and place within the City as it may deem proper until all interested parties shall have had a reasonable opportunity to be heard. As soon as may be after the completion of such hearings, the Board shall make its decision upon the matters heard, awarding compensation and damages for any property proposed to be taken and awarding or assessing benefits or damages, as the case may be, against or in favor of the property affected by such improvement or action, if any, all subject to the approval of the Council as hereinafter provided. Thereupon the Board shall in writing report its recommendations to the Council. Such report shall have annexed thereto a survey and plat showing the particular designation of any land proposed to be taken and the layout of any work or improvement contemplated, and shall state the value of any land or property proposed to be taken as found by the Board, and the probable cost of making any public improvement or taking any other action specified in the notice as contemplated by the Council, the amount of any award for compensation or damages for any property proposed to be taken and of the amount awarded or assessed for benefits or damages, as the case may be, against or in favor of property affected by the improvement or action, if any.

PORTION TO BE ASSESSED

Section 149. In assessing benefits the Board of Revision and Appraisal shall assess upon and against any property benefited its due proportion of the cost of the contemplated work, improvement or action, including both the damages resulting therefrom and the estimated cost thereof. If the Council shall have ordered the assessment of only a portion of the entire cost against properties benefited, the Board shall assess upon each parcel thereof its due proportion of such part. If an assessment of benefits be made against any property and an assessment of damages be made in its favor with respect to the same property, the Board of Revision and Appraisal shall, in its report to the Council as to such property set forth the amount of such benefits and damages, respectively, but shall assess against or in favor of such property, as the case may be, only the difference between such benefits and damages. In no case shall the assessments of benefits against any property be in excess of the actual benefit as determined as herein provided that will accrue thereto as a result of the work, improvement or action for which the assessment is made.

ACTION ON REPORT OF BOARD OF REVISION AND APPRAISAL

Section 150. Any report made to the Council by the Board of Revision and

Appraisal, as hereinbefore provided, shall lie over until the next regular meeting of the Council occurring not less than one week after it shall have received such report. After the expiration of the time herein specified the Council may act upon the report and hear any complaint respecting any award or assessment made therein, or it may refer the matter to a Committee of the Council to hear such complaints and report thereon. Thereafter the Council may approve the report made by the Board of Revision and Appraisal as presented, or may reject it or refer it back to the Board for further consideration but shall have no power to revise the same. Whenever any such report is referred back to the Board of Revision and Appraisal for further consideration the Board shall as soon as may be but upon not less than ten days' notice given as herein provided, meet at the time and place specified in such notice and conduct such further hearings thereon as may be necessary to give all interested parties further reasonable opportunity to be heard and to hear any further material evidence that may be adduced by any interested persons respecting any award or assessment provided for in the report or respecting any other material matter. Said notice shall specify the time and place of such meeting and the matter to be heard by the Board thereat, shall be subscribed by the Commissioner of Assessment, and shall be published at least once in a regular issue of a newspaper printed and published in the City, and qualified as a medium of official and legal publication as defined by Section 10935, General Statutes of Minnesota, 1923. In so meeting the Board may adjourn from time to time and may after the completion of such hearing or hearings, approve the report as originally made, or revise and approve the same, as they may deem just. Thereafter the Board shall prepare such report in the same form as to items and details as is required by this Charter for the original report made by it and shall then present the same as finally approved by it to the Council, which shall then proceed as in the case of an original report. Such report as finally approved by the Council shall be filed in the office of the City Clerk and be by him preserved as a permanent public record.

COUNCIL TO ADOPT FINAL REPORT AND ORDINANCES

Section 151. Whenever the Council shall determine to proceed with the action, work or improvement described in any report of the Board of Revision and Appraisal, it shall pass an ordinance directing that such action, work or improvement be carried out, awarding compensation or damages for the property taken for or in connection therewith, if any, and assessing or awarding the benefits or damages as the case may be in favor of or against any property affected by such action, work or improvement, all in accordance with such report as finally approved by the Council and filed with the City Clerk. Upon the passage of such ordinance, each and all actions, improvements and work provided for therein shall, except as hereinafter provided, be deemed legally authorized and all awards and assessments of compensation, damages or benefits so provided for, shall be duly and legally made.

COURT APPEAL GUARANTEED

Section 152. Any person whose property it is proposed to take, damage, interfere with or assess for benefits under the provisions of this Charter and who deems that there is any irregularity in the proceedings of the Council or Board of Revision and Appraisal by reason of which the report of such Board should not have been confirmed, or who is dissatisfied with the amount allowed for any property proposed to be taken or with the benefits, damages or compensation assessed or awarded against or in favor of his property may, at any time within ten days after the passage of the ordinance approving such report, appeal from such action of the Council to the District Court of Hennepin County. Any such appeal shall be made by serving written notice thereof upon the City Clerk and specifying therein the property of the appellant affected by such award or assessment and setting forth the reasons for objecting thereto. At the time of making such appeal there shall be delivered to the City Clerk a bond to the city, executed by the appellant or by someone in his behalf, with two sureties who shall justify in the penal sum of Fifty Dollars, conditioned to pay all costs that may be awarded against the appellant.

PROCEEDINGS IN COURT APPEAL

Section 153. Within ten days after the making of any appeal provided for in the next preceding section, the City Clerk shall make out and transmit to the Clerk of the District Court certified copies of the report of the Board of Revision and Appraisal, as finally approved by the Council, and of the

objections thereto filed by the appellant. If more than one appeal be taken from the action of the Council in approving the same report of the Board of Revision and Appraisal, it shall not be necessary for the Clerk, in appeals subsequent to the first, to transmit to the Clerk of the District Court anything except the objections of the appellant. There shall be no pleading on any such appeal but the court shall determine, in the first instance, whether there was, in the proceeding of the Board of Revision and Appraisal, or of the Council, any such irregularity or omission of duty prejudicial to the appellant and specified in his written objections that, as to him, the award or assessment ought not to stand. The case may be brought on for hearing on eight days' notice at any general or special term of the Court and shall have precedence of other civil cases. The judgment of the Court shall be either to confirm or annul the proceedings only as they affect the property of the appellant proposed to be taken, damaged or assessed for benefits and described in his written objections and from such determination no appeal or writ of error shall lie.

BOARD OF RE-APPRAISAL APPOINTED

Section 154. In case the amount allowed for any property proposed to be taken or the amount of compensation or damages awarded or of benefits assessed be complained of by an appellant the Court shall, if the proceedings be confirmed in other respects, appoint three disinterested resident freeholders of the city as a Board to reappraise the value of such property or the amount of such compensation, damages or benefits. The parties to the appeals shall be heard by the Court concerning the persons to be appointed to such Board and the court shall fix a time and place for the Board to meet. The members of any such Board shall be sworn to the faithful discharge of their duties as members thereof and shall proceed to view the premises and hear the parties interested with respect to the value of any such property or the amount of such compensation, damages or benefits.

REPORT BY BOARD OF RE-APPRAISAL

Section 155. In determining the value of any property proposed to be taken, and in awarding or assessing damages and benefits, any board of appraisers appointed by the District Court shall be governed, in all material respects, by the provisions of this Charter as to the Board of Revision and Appraisal. After viewing the premises and hearing the parties in interest the Board of Appraisers shall report its award or assessment to the Court. The Court may set the same aside for good cause shown and recommit it to the same Board of Appraisers or may commit to a new Board appointed in like manner. If not set aside, the report shall be final. The Court shall allow reasonable compensation to the appraisers for their services and make such award of costs on an appeal, including the compensation of the appraisers, as it may deem just. If the Court shall be of the opinion that any such appeal was frivolous or vexatious, it may adjudge double costs against the appellant. An appeal may be taken to the Supreme Court from the final order of the District Court in any such case either by the city or by any other party thereto.

APPEAL AWARD—HOW PAID

Section 156. Whenever the Court, upon appeal from an award or assessment, shall award an appellant for any property taken or damaged an amount in excess of the award appealed from, or shall make an assessment of benefits for a less amount than that from which appeal is taken, the amount of any such increase in award or decrease in assessment may be paid by the city from any funds available therefor, or the Council may cause such amount to be assessed upon and against the property benefited by the proposed work, action or improvement without prejudice to prior assessments made thereon in the same proceedings. In case of any such additional assessment, the Council shall refer the matter to the Board of Revision and Appraisal which, upon not less than ten days' notice of the time, place and purpose of the meeting shall at the time and place specified in such notice, meet and hear all parties in interest whose property would be affected by such additional assessment. The form and substance of such notice the publication thereof and all proceedings in any such case shall be the same as provided by this Charter in case of an original assessment, including the right of appeal to the District Court or to the Supreme Court.

ABANDONMENT OF PROCEEDINGS—WHEN

Section 157. All proceedings begun under Sections 143 to 156, inclusive, of this Charter, except proceedings begun upon request of the School and Library Board, may, by resolution of

the Council, be abandoned in whole or in part at any time during the pendency thereof or within sixty days after the final order of the District Court of Hennepin County, or the Supreme Court of Minnesota, upon the last appeal from any award or assessment. Any such proceedings begun at the request of the School and Library Board shall be similarly abandoned upon request of said Board expressed by resolution thereof. When proceedings are abandoned as provided in this section new proceedings may be begun at any time.

APPEAL AWARD—WHEN PAID

Section 158. When property is taken for public use in the manner hereinbefore provided the city shall become and be obligated to and shall within thirty days after the expiration of the time allowed for the abandonment of proceedings as provided by the next preceding section, pay the amount of the award to the owner of any such property or to his duly authorized agent. Upon such payment or tender of payment being made, the city shall have the right to enter at once into full and exclusive possession of the property taken and the fee title thereto, shall, except in case of streets, parkways and alleys, pass absolutely to and be vested in the city as of the date of the payment or tender of payment therefor ,as the case may be. In case of lands taken for streets, parkways or alleys an easement only shall be acquired by the city.

DETERMINATION OF DISPUTED APPEAL AWARD

Section 159. If the city cannot determine to whom an award should be paid in case of property taken for public use or damaged by reason of the making of a public improvement, or if there is a disputed claim with reference thereto, the amount of the award may be deposited with the Clerk of the District Court of Hennepin County. The Court, upon proper application of any person claiming the award or any part thereof, shall determine to whom the same shall be paid and order payment accordingly.

LIST OF APPROPRIATED PROPERTY FILED

Section 160. At the conclusion of any proceedings by which property is taken for public use as hereinbefore provided the Commissioner of Assessment shall prepare a complete list by legal description of all real property taken in such proceedings and file such list for record in the office of the Register of Deeds of the proper county.

CITY'S PORTION OF COST OF IMPROVEMENTS

Section 161. In assessing the costs of improvements in, on or under streets, lanes, alleys and other public ways and places against property benefited thereby the city shall pay the cost of such improvements made at the intersections of streets, in front of property exempt from special assessment, and in front of city property. The cost of water mains in excess of the cost of a six-inch main and the cost of sewers in excess of the cost of a two-foot sewer shall also be paid by the city. The cost of paving the portions of streets, lanes, alleys and other public ways and places occupied by railway or street railway tracks shall not be assessed against adjacent property but shall be paid by the person or corporation so occupying any such street, lane, alley, public way or place.

DELIVERY, COLLECTION AND PAYMENT OF ASSESSMENTS

Section 162. On or before the first day of October of each year the Commissioner of Assessment shall deliver all assessment rolls to the Auditor of Hennepin County, who shall extend the assessments against the property assessed. Such assessments shall be collected and payment thereof enforced with and in like manner as state and county taxes, and when collected shall be paid by the County Treasurer to the City Treasurer, together with all costs, penalties and interest collected thereon.

COUNTY AUDITOR TO FURNISH DESCRIPTIONS

Section 163. Whenever the Council shall declare its intention to acquire property for the city by condemnation or purchase, or to make any improvement, to be paid for in whole or in part by assessments upon property benefited by any such acquisition or improvement, the Commissioner of Assessment shall make a written request to the Auditor of Hennepin County for a list of descriptions of the real estate within the benefited district as designated by the Council, together with the names of the respective owners. Upon the receipt of this request the County Auditor shall forthwith make and return to the Commissioner of Assessment the descriptions and names so required. For making such lists and furnishing such information, for the keeping of any books necessary therefor and for all work in connection with special assessment matters the city shall pay to the County Auditor for the use of

the county the sum of five cents for each entry of a special assessment entered by him upon the tax list of the county, such payment to be made upon the completion of the tax list for each year.

REMITTING ASSESSMENTS

Section 164. When any lot fronting on two or more streets has been previously assessed for paving, water main or sewer upon a different street from the one through which a similar improvement is to be extended and such assessment has been paid, the Council may remit from the assessment of such lot such portion of the second assessment, not exceeding the amount of the first assessment, as it may deem just. The decision of the Council in such matter shall be final and the refusal or failure of the Council to make such remission shall not be ground for setting aside the assessment.

CANCELLATION OF ASSESSMENTS —WHEN

Section 165. The Council may by resolution direct the Auditor of Hennepin County to cancel any special assessment either because irregular, erroneous, or because the improvement has been constructed by the owner of the property against which the assessment has been levied. When notified of any such action of the Council the Auditor shall enter the necessary credits on his records. The Council may also provide by ordinance that the certificate of the Commissioner of Assessment that any improvement for which a special assessment has been made has been constructed by the owner of the property against which the assessment was levied shall, when presented to the County Auditor, be sufficient authority for the County Auditor to cancel such assessment and to enter the proper credits by reason thereof. Such certificates of the Commissioner of Assessment shall be received by the County Treasurer in lieu of money in payment of such special assessments. The Council may also by resolution or vote direct the Auditor of Hennepin County to divide any special assessments and place parts thereof on any part of the real estate against which assessed and levied and to make the necessary corrections and records thereof.

PAYMENT IN ADVANCE—WHEN

Section 166. After any improvement has been ordered and special assessments therefor made and levied, any person, desiring that the improvement be made before the collection of the special assessments, may advance the cost of such improvement and pay the same to the City Treasurer. The money so advanced shall not be used for any other purpose and the Council may cause immediate construction of such improvement. As the special assessments for any improvement so constructed are paid to the city the Council shall cause the amount so received to be paid over in annual installments, without interest, to the person making such advancement. If the amount of the cost so advanced shall exceed the actual cost of the improvement for which the same is made, such excess shall forthwith be repaid by the city.

NEW ASSESSMENT — PROCEEDINGS

Section 167. If any special assessment be annulled or set aside by any such court, or if the Council shall determine an assessment to be so irregular or defective that it cannot be enforced, the Council may proceed with a new assessment which shall be made, levied and collected in all respects as though an original assessment. In case any such second assessment be annulled or vacated, the Council may again make an assessment, or assessments, until a valid assessment be made; but nothing in this section shall be deemed to authorize any new assessment in cases where the Court shall have determined that lots or lands are not subject to assessment. After any such new assessment roll shall have been completed the Commissioner of Assessment shall enter thereon, against any property upon which a former assessment for the same improvement shall have been paid, the words, "Paid on former assessment," and the amount so paid, which entry shall cancel the latter assessment to the amount thus indicated as paid.

EFFECT OF INSUFFICIENT ASSESSMENT

Section 168. No special assessment shall be held invalid because the amount thereof happens to be either more or less than the cost of the improvement for which the same is made. If the amount be less than necessary to pay for such improvement, the balance shall be paid by the city out of any appropriation made for improvements of like character.

PAYMENT DIRECT TO CITY TREASURER—WHEN

Section 169. After any special assessment roll shall have been adopted by the Council and before its delivery to the Auditor of Hennepin County for collection, ten per centum or any

multiple thereof of any assessment thereon may be paid directly to the City Treasurer, and on the production of the City Treasurer's receipt therefor to the Commissioner of Assessments he shall enter upon the assessment roll, opposite the proper assessment, the amount so paid, together with the words, 'Paid to City Treasurer," which entry shall cancel the assessment to that extent.

COUNTY AUDITOR TO EXTEND ASSESSMENTS ON TAX ROLLS

Section 170. When an assessment roll shall have been delivered to the Auditor of Hennepin County he shall, for purpose of collection, divide each assessment into the same number of equal parts as the number of annual installments in which it is to be paid and shall, in books to be kept by him, extend such parts in proper columns, one column for each annual installment, but making no entry in the column for the final installment. The County Auditor in extending special assessments shall add to the amount of each installment, except the first, interest on all deferred installments at the rate of five per centum per annum. Installments of special assessments and interest thereon shall be paid at the time of paying general taxes, the first installment becoming due in the fiscal year after that assessment is made.

PAYMENT IN ONE AMOUNT

Section 171. Persons obliged, or having the right, to pay a special assessment may pay all but the last installment thereof at any time after the first year's installment becomes due and may pay the final installment as soon as it is extended by the County Auditor as provided in the next succeeding section of this Charter.

FINAL ASSESSMENT

Section 172. After the completion of an improvement for which a special assessment has been levied the City Manager shall cause to be made to the Council a statement of the actual cost thereof, showing the proportion of the cost chargeable to each piece or parcel of land benefited and against which assessment has been made. The Commissioner of Assessment shall thereupon make a certified copy of such statement and transmit it to the Auditor of Hennepin County, who shall deduct from the actual cost of the improvement chargeable to each piece or parcel of land, as shown by the statement, the aggregate amount of the assessment already spread against such land, comprising all but the final installment of the assessment, and shall spread on the tax list as such final installment the difference, if such difference does not exceed any of such other installments; otherwise he shall spread on the tax list such final installment the portion of such difference equal to each such other installment, and the balance thereof shall be paid out of any moneys of the city available therefor. The final installment, so determined, shall be collected and paid as in the case of other installments.

PERMANENT IMPROVEMENT REVOLVING FUND

Section 173. The permanent improvement revolving fund as constituted at the time of the adoption of this Charter shall be continued. The principal sum of each of the installments of all special assessments shall be credited to such fund, provided, however, that all assessments assessed and levied on behalf of various local improvements, the cost of which were defrayed from the proceeds of issues of municipal bonds, shall be credited to the sinking fund of the city and the interest on deferred installments of all such assessments shall be credited to the interest fund of the city. The interest on deferred installments of all other special assessments shall be credited to the sinking fund and shall be invested in the same manner as other moneys credited to the sinking fund. Any accumulation of money in the permanent improvement revolving fund not needed for the time being shall, so far as practicable, be invested by the Sinking Fund Commission. If at any time there shall be an accumulation of money in the permanent improvement revolving fund greater than the probable demands thereon during the next two years, the Sinking Fund Commission shall invest such excess in the same manner as the sinking fund is invested. There shall be paid out of the permanent improvement revolving fund each year only that portion of the cost of any property, work or improvement the payment of which has been provided for by special assessment, and such fund shall be diverted to no other purpose.

BONDS ISSUED FOR LOCAL IMPROVEMENTS

Section 174. All special assessments, assessed and levied against property to defray the cost of local improvements which have been made from funds realized from the sale by the Council of municipal bonds or local improvement certificates shall be credited to the account of the sinking fund of

the city, and all collections therefrom shall be deposited directly or by transfer into such sinking fund.

PROCEDURE IN CONDEMNATION OF PROPERTY

Section 175. The cost of any property purchased or condemned by the city, including the expense of condemnation proceedings, may, in the discretion of the Council, be assessed in whole or in part against property benefited by the acquisition. The procedure in any such case shall be the same as that provided by this Charter for other special assessments.

EFFECT ON ASSESSMENT ROLL OF COUNCIL APPROVAL

Section 176. No omission, informality or irregularity in proceedings in, or preliminary to, the making of any special assessment shall affect its validity when the assessment roll therefor has been approved by the Council.

SALE, JUDGMENT, MORTGAGE, ETC., CANNOT INVALIDATE ASSESSMENT LIEN

Section 177. No sale or execution or any other proceeding upon a judgment, decree, foreclosure or lien, and no transfer or mortgage shall divest or affect any tax or assessment lien for any improvement chargeable to or assessed against property under this Charter, though the confirmation of such assessment may be subsequent to the lien of such judgment, decree or other lien, or to such transfer or mortgage.

MUNICIPAL BALLOT

The Council

(Or School and Library Board, or Board of Financial Review, as the case may be).

District .....Precinct .....

Directions to Voters

Put the figure 1 opposite the name of your first choice in one of the squares indicated by the arrow. If you wish to express also second; third and other choices, do so by putting the figure 2 opposite the name of your second choice, the figure 3 opposite the name of your third choice, and so on. In this way you may express as many choices as you please. The more choices you express, the surer you are to make your ballot count for one of the candidates you favor.

This ballot will not be counted for your second choice unless it is found that it cannot help your first choice: it will not be counted for your third choice unless it is found that it cannot help either your first or second choice, and so on.

A ballot is spoiled if the figure 1 is put opposite more than one name. If you spoil this ballot, tear it across once, return it to the election officer in charge of the ballots and get another one from him.

Ballots for candidates for Judges of the Municipal Court, if any, shall be in form and substance as provided by the general election laws of the state so far as the same may be applicable.

ROTATION OF NAMES

Section 196. On all ballots the names of candidates shall be printed in rotation and each type of ballot shall be printed in as many series as there are names of candidates to be printed thereon. The whole number of ballots of each type to be printed shall be divided by the number of candidates, and the quotient so obtained shall be the number of ballots printed in each series. In printing the first series of ballots, the names of the candidates shall be arranged in the alphabetical order of their surnames. After this series has been printed, the first name shall be placed last and the next series shall be printed. This process shall be repeated until all the series shall have been printed, each name having appeared first in one whole series. The ballots so printed shall be combined in tablets in such manner that each tablet shall contain substantially the same number of ballots from each series, and that, so far as practicable, no two or more ballots from the same series shall be consecutive in a tablet.

BLANK SPACES ON BALLOTS

Section 197. On all ballots a blank space shall be left below the printed names of candidates. In any such space an elector may write the name of any eligible person and votes cast for such person shall be counted as though cast for candidates whose names are printed on the ballots.

SEPARATE BALLOT BOXES

Section 198. In elections held pursuant to Sections 191 to 201, inclusive, of this Charter, there shall be separate ballot boxes for the ballots cast, respectively, for members of the Council; for members of the School and Library Board, members of the Board of Financial Review, and Judges of the Municipal Court, if any to be elected; and for measures submitted at the election; in which such ballots shall, respectively, be placed by the judges of election.

COUNTING BOARD

Section 199. The City Clerk shall,

at least five days before any election held pursuant to Sections 191 to 201, inclusive, of this Charter, appoint a Central Counting Board of seven members for the purpose of counting the ballots cast for members of the Council; for members of the Board of Financial Review, members of the School and Library Board, and Judges of the Municipal Court, if any to be elected; and upon all measures voted upon by the electors throughout the city. He may without cause remove any member of said Board or fill any vacancy therein.

COUNTING

Section 200. At the close of the election the precinct election officials shall first count and make a record of the ballots cast upon measures submitted at the election; then the ballots cast for Judges of the Municipal Court, if any to be elected. They shall then sort and count the ballots cast for members of Council; then for members of the Board of Financial Review, if any; and then for members of the School and Library Board, if any; in each case according to the first choices thereon indicated. At each voting precinct the ballots cast as first choice for each candidate for the Council; the ballots cast as first choice for each candidate for the Board of Financial Review, if any; and the ballots cast as first choice for each candidate for the School and Library Board, if any; shall, respectively, be put in a separate sealed package which shall be properly marked on the outside to show the number of ballots therein and the name of the candidate for whom they were cast and the office for which he is a candidate. All such sealed packages containing ballots for members of the Council; all containing ballots for members of the Board of Financial Review; all containing ballots for members of the School and Library Board; all containing ballots for Judges of the Municipal Court; and all ballots on measures submitted, shall then be sealed, respectively, in the proper ballot boxes therefor and returned to the Central Counting Board for canvass, tabulation and count. All spoiled ballots for any office or ballots therefor declared invalid by the precinct election officials, shall respectively, be preserved, enclosed in a separate sealed package therefor, marked "Spoiled Ballots," or "Invalid Ballots," as the case may be, and placed in the ballot box with other ballots for said office and returned therewith to the Central Counting Board.

RULES FOR COUNTING BALLOTS

Section 201. The Central Counting Board for the City shall first count the ballots for members of the Council; then for members of the Board of Financial Review, if any, and then for members of the School and Library Board, if any. Such ballots shall be counted and the results determined according to the following rules:

1—(A) The following ballots shall be invalid:

(a) Ballots so marked that the first choice of the voter can not clearly ascertained.

(b) Ballots containing words or marks by which the voter might readily be identified and which were apparently not made in an endeavor to cast a vote.

(c) All other ballots shall be valid whether marked according to the directions printed on them or not.

In particular the following ballots, unless marked in violation of (b) above, shall be valid:

(a) Ballots marked with a cross (x) opposite the name of one candidate only, with no other mark opposite that candidate's name, and with no figure 1 opposite the name of any candidate. On such a ballot the cross shall be considered equivalent to the figure 1.

(b) Ballots marked with both figures and crosses, the figure 1 appearing opposite the name of one candidate only. On such ballot the crosses shall be disregarded.

(c) Ballots marked in such a way that the first choice of the voter is clear but there is doubt as to his intention for some subsequent choice. Such a ballot shall be treated throughout the election as if it had been marked for only as many of the highest consecutive choices as can all be clearly ascertained.

2—All the packages of ballots received from the precincts, including packages of ballots pronounced invalid by the precinct officials, shall be examined carefully and recounted and any necessary corrections shall be made in the sorting or the counting.

3—After the review of the precinct count the total number of valid ballots cast for each candidate as first choice and the total number of valid ballots cast shall be determined.

4—The total number of valid ballots shall then be divided by a number greater by one than the number of candidates to be elected. The next whole number larger than the resulting quotient shall be the quota that suffices to elect a candidate.

5—All candidates the number of whose first choice ballots equals or ex-

ceeds the quota shall then be declared elected.

6—All ballots obtained by any candidate in excess of the quota shall be termed his surplus. Any surpluses there may be shall next be transferred, the largest surplus first, then the next largest, and so on, according to the following rules.

7—The particular ballots to be taken for transfer as the surplus of a candidate shall be obtained by taking as nearly an equal number of ballots as possible from the transferable ballots that have been cast for him in each of the precincts. The particular ballots to be transferred from each precinct shall be taken as they happen to come without selection. If the number of transferable ballots is less than the number of ballots in the surplus, all the transferable ballots shall be transferred and the rest of the ballots retained. . . .

A "Transferable ballot" is a ballot from which, at the time of transfer, the next choice of the voter for some continuing candidate can be clearly ascertained. A "Continuing candidate" is a candidate as yet neither elected nor defeated.

8—In the transfer of a surplus each ballot shall be transferred to the candidate marked on it as next choice among the unelected candidates. If a ballot taken for transfer is found to be in reality not transferable, it shall be exchanged if possible for another of the same candidate's ballots from the same precinct if possible, which is transferable.

9—After the transfer of all surpluses or, if no candidate received a surplus, after the count of first choices, every candidate who has no ballots to his credit shall be declared defeated.

10—Thereupon the candidate lowest on the poll as it then stands shall be declared defeated and all his ballots transferred, each to the candidate marked on it as the next choice among the continuing candidates. Any ballot which has not been marked for any continuing candidate shall be set aside as ineffective.

11—After all the ballots of the lowest candidate have been transferred, the candidate who is then lowest on the poll shall be declared defeated and all his ballots transferred in the same way. Thus lowest candidates shall be declared defeated one after another and all their ballots transferred.

12—Whenever the number of ballots credited to any candidate becomes equal to the quota, he shall immediately be declared elected and no ballots in excess of the quota shall be transferred to him.

13—If, at any time after the transfer of all surpluses, if any, the ballots of two or more candidates lowest on the poll do not all together exceed in number the ballots of the candidate next higher on the poll, those lowest candidates may be declared defeated simultaneously and all their ballots transferred together, provided the number of continuing candidates is not thereby reduced below the number still to be elected.

14—When candidates to the number of the seats to be filled have received the quota and have accordingly been declared elected, all other candidates shall be declared defeated and the election shall be at an end; or when the number of undefeated candidates is reduced to the number of the seats to be filled, those candidates shall be declared elected whether they have received the full quota or not and the election shall be at an end.

15—If, when a candidate is to be declared defeated, two or more candidates are tied at the bottom of the poll, that one of the tied candidates shall be declared defeated who was credited with fewest ballots just before the last transfer of ballots. If two or more of the tied candidates were tied at that stage of the count also, the second tie shall be decided, if necessary, by referring similarly to the standing of candidates just before the last transfer of ballots before that. This principle shall be applied successively as many times as may be necessary, a tie at any stage of the count being decided by referring to the standing of the tied candidates just before the last preceding transfer of ballots.

Any tie not otherwise provided for shall be decided by lot.

16—A record of the count shall be kept in such form as to show:

(a) After the count of first choices, the number of ballots credited to each candidate and,

(b) After each transfer of ballots, the number thereby credited to each candidate, the number thereby found ineffective, the total for each candidate, and the total found ineffective.

17—Each transfer of ballots shall be checked by adding together the resulting totals of all candidates and the total number of ineffective ballots. If the sum thus obtained is not the same as the total number of valid ballots determined previously, an effort shall be made to discover and correct the error before the count proceeds farther.

18—Every ballot that is transferred

from one candidate to another shall be stamped or marked so that its entire course from candidate to candidate can be conveniently traced.

19—The candidates or their agents, representatives of the press and so far as may be consistent with good order and with convenience in the counting and transferring of ballots, the public shall be given every facility for witnessing these operations.

20—In any recount every ballot shall be made to take the same course that it took in the original count unless there is discovered a mistake that requires its taking a different course, in which case any required changes shall be made. These principles shall apply also to the correction of any error that may be discovered during the original count.

21—The City Council shall have power to make supplementary regulations for the conduct of elections, to provide for the use of mechanical or other devices for marking and sorting the ballots, and tabulating the results, and to modify the form of the ballot, the directions to voters, and the details in respect to the methods of counting and transferring ballots accordingly; provided, however, that no change shall be made which will alter the principles of the voting or of the counting.

22—The City Clerk shall have power to adopt without action of the City Council such measures for facilitating the counting of the ballots, either at the precincts or at the Central Counting place as are not in conflict with the provisions of this Charter, or with the regulations of the City Council.

23—Except as otherwise provided in this Charter, the general election laws shall govern in all elections.

The Board shall also canvass the precinct returns on the election of Judges of the Municipal Court, if any, and upon Charter amendments and other measures submitted to the electors and declare the results as the same appear from such returns.

VACANCIES—HOW FILLED.

Section 202. If a vacancy occur in any Council elected under and pursuant to Sections 191 to 201, inclusive, of this Charter, some eligible person shall be chosen by a majority vote of the remaining members of the Council to fill the place for the unexpired term. If a vacancy occur in the Board of Financial Review or in the School and Library Board elected under and pursuant to Sections 191 to 201, inclusive, of this Charter, some eligible person shall be chosen by a majority vote of the remaining members of the Board in which such vacancy occurs to fill the place for the unexpired term.

COUNCIL ORDINANCES TO GOVERN ELECTIONS.

Section 203. The Council may enact ordinances, not inconsistent with this Charter or the laws of the State, to carry out the election provisions hereof, in matters concerning elections not covered by this Charter or by ordinance, judges of election and counting boards shall be governed by the general laws of the state relating to elections, except in cases where such law is contrary to the purpose and intention of this Charter.
